

## PAPER FORTUNE TELLERS

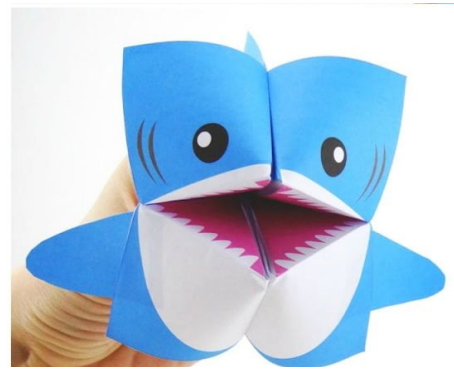

### Supplies:

- Fruit fortune teller template
- Shark fortune teller template
- Winter joke fortune teller template
- Tongue depressor (1)
- Scissors (not supplied)
- Glue (optional for shark cootie catcher)

### Instructions:

1. First, cut out the cootie catcher square. Each cootie catcher design will need to be cut out around the square's edges.
2. Fold the square in half diagonally. Tip: use the craft stick to make each fold nice and crisp.
3. Unfold, and fold the square in half diagonally in the opposite direction.
4. Unfold and turn over the paper.
5. Fold all four corners into the center of the square. You should have a smaller square made up of four isosceles triangles.
6. Flip this square over so you no longer see the triangles.
7. Fold all four corners into the center of the square again.
8. Fold the paper sideways in both directions.
9. Work your thumbs and pointer fingers into the four pockets and start telling some fortunes!

For the shark, glue the fins in the appropriate places, and glue the upper and lower parts of the shark head so only the mouth opens.
